Experiment 10: StyleHub Online Fashion Retailer

AIM:

To create an online apparel store web application for StyleHub featuring categorized clothing collections, size guides, an interactive shopping cart, and administrative product controls.

ALGORITHM:

- **Start** and render the fashion catalog separated by Men, Women, and Seasonal sections.
- **Product Selection:** Allow users to choose items, select suitable apparel sizes (S, M, L, XL), and read descriptions.
- **Cart & Orders:** Support adding products to the shopping cart and checkout processing.
- **Admin Dashboard:** Provide functionality for the store admin to update stock, change pricing, and modify descriptions.
- **Stop.**

HTML CODE:

```
<!DOCTYPE html>
<html>
<head>
  <title>StyleHub Fashion Store</title>
  <style>
    body { font-family: Arial; margin: 20px; background-color: #faf5f5; }
```

```
        .box { background: white; border: 2px solid #800020; padding: 15px; margin: 15px auto;
width: 80%; }
        h1, h2 { color: #800020; text-align: center; }
        table { width: 100%; border-collapse: collapse; margin-top: 10px; }
        table, th, td { border: 1px solid #ccc; padding: 8px; text-align: left; }
        th { background: #f7d6d6; }
        input, select { width: 95%; padding: 6px; margin: 5px 0; }
        .btn { background: #800020; color: white; border: none; padding: 8px 16px; cursor: pointer;
}
    </style>
</head>
<body>
    <h1>StyleHub Fashion Online Store</h1>

    <div class="box">
        <h2>1. Clothing Collection</h2>
        <table>
            <tr>
