Experiment 8: MedCare Online Hospital Appointment Booking System

AIM:

To design and develop a web-based online hospital appointment booking system for MedCare Hospital that enables patients to search for doctors by specialty and location, schedule appointments, and allows hospital administration to manage doctor profiles and appointments.

ALGORITHM:

1. **Start** the application and render the hospital portal home page.
2. **Patient Registration/Login:** Allow patients to register or authenticate their account.
3. **Doctor Search:** Enable search by medical specialty (e.g., Cardiology, Dermatology) and hospital location.
4. **Appointment Scheduling:** Allow the patient to pick a flexible date and time slot, fill the check-in form, and confirm.
5. **Admin Module:** Provide administrators with options to manage doctor directories, update clinic locations, and review booking statistics.
6. **Stop.**

HTML CODE:

```
<!DOCTYPE html>

<html>

<head>

  <title>MedCare Hospital Booking</title>

  <style>

    body { font-family: Arial; margin: 20px; background-color: #f0f8ff; }

    .box { background: white; border: 2px solid #005b96; padding: 15px; margin: 15px auto; width: 80%; }

    h1, h2 { color: #005b96; text-align: center; }
```

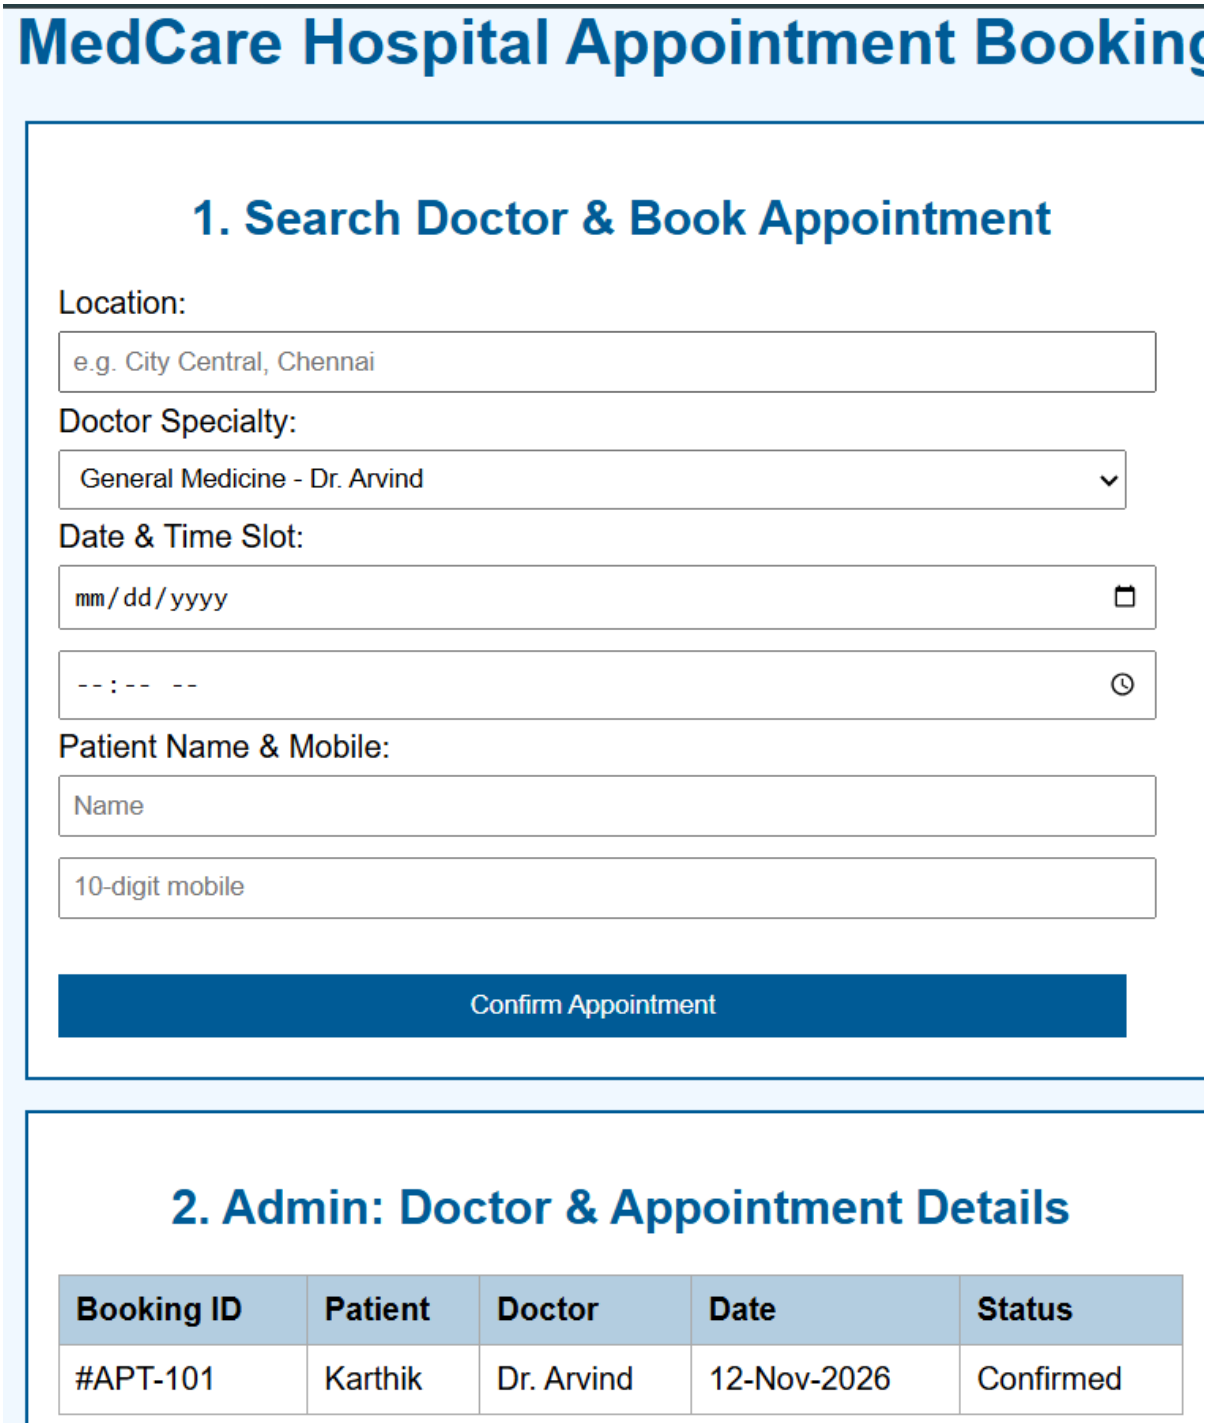

```
        table { width: 100%; border-collapse: collapse; margin-top: 10px; }
        table, th, td { border: 1px solid #aaa; padding: 8px; text-align: left; }
        th { background: #b3cde0; }
        input, select, textarea { width: 95%; padding: 6px; margin: 5px 0; }
        .btn { background: #005b96; color: white; border: none; padding: 8px 16px; cursor: pointer;
}
    </style>
</head>
<body>
    <h1>MedCare Hospital Appointment Booking</h1>

    <div class="box">
        <h2>1. Search Doctor & Book Appointment</h2>
        <form onsubmit="alert('Appointment Scheduled! Confirmation SMS sent.'); return false;">
            <label>Location:</label>
            <input type="text" placeholder="e.g. City Central, Chennai" required>
            <label>Doctor Specialty:</label>
            <select required>
                <option>General Medicine - Dr. Arvind</option>
                <option>Cardiology - Dr. Priya</option>
                <option>Pediatrics - Dr. Suresh</option>
            </select>
            <label>Date & Time Slot:</label>
            <input type="date" required>
            <input type="time" required>
            <label>Patient Name & Mobile:</label>
            <input type="text" placeholder="Name" required>
```

```
        <input type="text" placeholder="10-digit mobile" required>
        <br><br>
        <input type="submit" value="Confirm Appointment" class="btn">
      </form>
    </div>

    <div class="box">
      <h2>2. Admin: Doctor & Appointment Details</h2>
      <table>
        <tr>
          <th>Booking ID</th>
          <th>Patient</th>
          <th>Doctor</th>
          <th>Date</th>
          <th>Status</th>
        </tr>
        <tr>
          <td>#APT-101</td>
          <td>Karthik</td>
          <td>Dr. Arvind</td>
          <td>12-Nov-2026</td>
          <td>Confirmed</td>
        </tr>
      </table>
    </div>
  </body>
</html>
```

OUTPUT:

MedCare Hospital Appointment Booking
1. Search Doctor & Book Appointment
Location:
e.g. City Central, Chennai
Doctor Specialty:
General Medicine - Dr. Arvind
Date & Time Slot:
mm/dd/yyyy
--:-- --
Patient Name & Mobile:
Name
10-digit mobile
Confirm Appointment
2. Admin: Doctor & Appointment Details
Booking ID
Patient
Doctor
Date
Status
#APT-101
Karthik
Dr. Arvind
12-Nov-2026
Confirmed
