Experiment 9: TechSavvy Online Electronic Gadgets Store

AIM:

To develop an e-commerce website for TechSavvy to showcase electronic gadgets, organize products into categories, manage a shopping cart, and give administrative controls to update prices and items.

ALGORITHM:

- **Start** and initialize the product catalog categorized by smartphones, laptops, and accessories.
- **Search & Browse:** Allow customers to browse items, search gadgets, and check product descriptions.
- **Cart Operations:** Enable users to add items to their shopping cart, edit quantity, or remove items.
- **Checkout:** Allow user checkout and simulate sending an order status confirmation email.
- **Admin Operations:** Provide forms for the administrator to add, update prices, or remove items from the catalog.
- **Stop.**
